Mr. Scott Krum
Legacy Mechanical Inc.
5161 Ward Road, Unit #3
Wheat Ridge, Colorado
80033

Dear Scott,

This letter is to express my complete satisfaction in working with Legacy Mechanical Inc. on the Denver Public Schools Bond Projects.

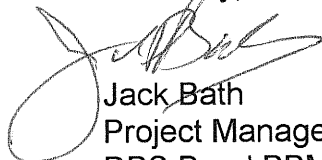

It was refreshing to work with a qualified contactor who fully understood how to start and complete a safe, high quality project on time and under budget. The aggressive schedule these projects required was never in doubt. Both you and Don were very effective in recognizing and addressing issues before they became problems. This talent often avoided negatively impacting the project schedule and budget.

Your field crew always conducted themselves in a professional manner and recognized safety and quality can all be achieved through proper planning.

The cooperation I received by all Legacy Mechanical employees, both during construction and commissioning, was greatly appreciated. This is a great reflection on how Legacy Mechanical conducts business.

I enjoyed working with all of you at Legacy Mechanical. Keep up the good work.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jack Bath', written over a large, stylized flourish.

Jack Bath
Project Manager
